BOX: SEQUENCE

Sir:

In accordance with 37 C.F.R. § 1.821 (g), applicants hereby submit a Sequence Listing (24 pages) on paper and on a computer readable 3.5" Diskette. The contents of the Sequence Listing on paper and in computer readable form are the same.

Sequences SEQ. ID. No. 50 and SEQ. ID. No. 51 in the specification as filed were incorrectly designated as such, as these sequences were designated as SEQ. ID. No. 1 and SEO. ID. No. 2, respectively, earlier in the specification, as described in greater detail in the Preliminary Amendment submitted herewith. SEQ. ID. No. 50 in the Sequence Listing is the identifier for the majority amino acid sequence shown in Figure 19 (top line) of the present invention as filed, which was not given a sequence identifier in the present invention as filed. As set forth in the accompanying Preliminary Amendment, the present application, as filed, provides written support for these sequence designations. Therefore, this submission contains no new matter.
